

844	Multi-Functional Training Stand	Model No
G-3	다기능 실습 스탠드	G-360101

(Safety Brake Installation, Manual Rotation Type)

- It is multi function training stand for practical training of disassembly, and assembly of engine and transmission, and starting of engine and they can be rotated by 360°.
- It is designed for functional, mechanical, dynamic relationship and manufactured by Korean patent.
- It is the safest educational multi function stand with main shaft rotating system and brake system of patent no. 0251812.
- Supporting capacity : 500kg(700kg with assistant 6 taps), supporting range : 180~430mm, supporting plate : $\phi 200$ mm, block : 220mm(2ea), 150mm(2ea), block pin : 120mm(4ea), left&right handles, connecting bracket, bolt tray, oil tray, drain cock.
- Robust and integrated main shaft of 45mm is made of S45C and precisely machined with CNC. In addition, installation of brake provides excellent supporting without any vibration.
- Internal worm gear is a rotating equipment for right and left all in one type, and it is operated in safe and easy way for hight-weighted engine that it uses the most efficient rotational ratio of NC 114:1 and $\phi 208 \times \phi 38$ mm S45C.
- Stand is made of high strength material and assembled with bearings and special bolts.
- Supporting capacity : 500kg(700kg with assistant 6 taps) supporting range : 180~430mm, supporting plate : $\phi 200$ mm, block : 220mm(2ea), block pin : 120mm(4ea), left&right handles, connecting bracket, bolt tray, oil tray, drain cock.
- Exterior is painted by diamond, and parts are coated for durability.
- The model is designed and manufactured according to ISO 9001 and our company's technical spec.
- It is easily moved and stopped by 4 wheels.
